Pioneer Scaffolding
& Painting Contractors

AN ISO 9001:2008 | OHSAS 18001:2007 CERTIFIED COMPANY

About Us

May we take this opportunity to introduce our company to provide services for Scaffolding, Painting, Specialized Coatings and Fire Barriers for Projects & Maintenance where you feel that our services could assist you to achieve your goal.

Pioneer Scaffolding & Painting Contractors (PSPC) which is established in 2007 is one of the fastest growing company providing varied services across the region. Our quality, safety, timely delivery and management efficiency has helped us to achieve ISO 9001:2008 and OSHAS 18001:2007.

We are providing our services into various sectors like Oil & Gas, Pharmaceutical, Heavy Industries, Thermal Power, Water Treatment, Petrochemicals & Chemical Industries.

At PSPC, we consist NACE Qualified coating Inspector, qualified workforce, modernized machineries and our experience has placed us ahead & we recognize that Health & Safety and customer focus is of paramount importance. For this reason we are constantly receiving repetitive works from our customers due to the dedication and overall standards of our works.

PSPC will partner with you and your facility engineer to provide value engineering before your project begins, find solutions to your problems throughout the work, and deliver a project that works for your operational and maintenance team.

We pride ourselves on achieving excellence in whatever work we undertake & it is our intention to offer you an excellent service at a very competitive rate.

Scaffolding Services

PSPC has evolved as one of the most competitive Scaffolding service provider in the region engaged in the erection/dismantling of scaffolding, subject to relevant safety standards. We offer scaffolding services for all size of projects from small and medium to large and major projects.

We thoroughly study, design and if required draft all scaffolding projects with CAD drawings to enable our client to visualize the frames prior to execution of work. We have a proven track record in delivering SAFE and cost-effective scaffolding solutions to our clients. We maintain very strong long term business association with all our clients and this reflects in our high ratio of repetitive business.

Painting Services:

Industrial structures have special coating & maintenance requirements & PSPC has a right solution for any surface. Whether the substrate must endure harsh environment, withstand frequent cleaning, or if its coating must be free of impurities, we have the expertise & precision to handle the demands of your projects.

Our ability to manage and self-perform all craft work enables us to honour each and every commitment we make.

Following are the services which we offer in industrial painting
